- Wizard of Spellalot - Grade 2
- Counting Change
- Young Scientist II

Education . . . Investment in a future.

Microgrames' Super Student Home Software centers on basic subject areas where extra review and practice at home on a regular basis will greatly benefit a student in his or her schooling.

The Grade 2 Collection includes:

6 Programs

FROGGY'S MATH RACE Do you want to practice adding and subtracting? Well, hop to it! Help Froggy challenge his animal friends to an exciting race on our second grade math track.

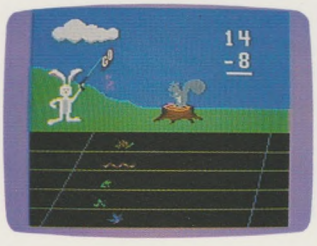
READER'S TREASURE CHEST I Discover contents of the old attic treasure chest by good work on comprehension exercises. Three right answers in a row earn you a look in the chest. Can you find the diamond?

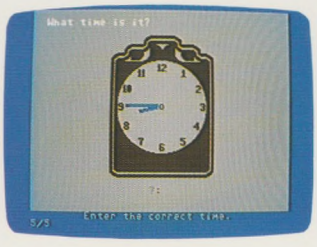
TELLING TIME Use our computer clocks to polish up your time-telling skills. If you get everything right, one of the clocks really goes cuckcoo.

WIZARD OF SPELLALOT - GR. 2 The wizard is not exactly friendly; but, he is interested in helping students master hundreds of spelling words appropriate for second grade.

COUNTING CHANGE You can't spend the coins you see on the screen; but, they look almost real. Use them to increase your skill at counting change accurately. When you see and hear our piggybank, you'll know you are an expert.

YOUNG SCIENTIST II Sorting things out into their proper categories is the problem here. Our busy scientist needs all the help you can give him to get his job done.





- **Effective educational formats**
- **Excellent, colorful graphics**
- **Multiple levels of difficulty** that provide students greater challenges as their skills improve
- **Tips for parents** on how children gain the most from these programs

Since 1981 MICROGRAMS has specialized in developing educational software for use in schools nationwide. This new Super Student series now enables children to benefit from MICROGRAMS high quality software at home.
